

# Stop Loud Vehicle Noise Georgia

We are seeking your support! Kindly sign our petition, which we will submit to lawmakers to show how important this issue for the Georgia.

[Stop Loud Vehicles In Georgia](#)

Stop Loud Vehicles, Inc. is dedicated to raising awareness about the health and safety impact of loud vehicles. As we collaborate with lawmakers, it is essential to educate the public about the various health and safety concerns associated with loud vehicles. We are a nonprofit 501(c)(3) organization composed of volunteers from across the state.

## STOP LOUD VEHICLES, INC.

### How you can help!

Noise Survey – This data will show the locations, volume, and frequency of vehicle noise. It is important for all Georgians to participate in this survey whenever they encounter a loud vehicle. Some lawmakers believe this is not an issue in their area. You can complete the survey in under 30 seconds.

Distribute the flyer widely! We would love to be invited to speak at your event.

Consider volunteering – we are looking for assistance with social media, phone calls, emails, administrative tasks, and more!

Check out our website for much more information!

# STOP LOUD VEHICLES, INC.

## WHO ARE WE?

A few years back, many Atlanta communities joined forces to reduce loud vehicle noise, which was affecting their quality of life. Then other areas in the state began to join.

Automated Noise Detection Technology is commonly used across the United States and Europe.

However, this technology is currently not allowed under Georgia law.

Stop Loud Vehicles, Inc. was established in 2024. As the noise is generated by motorcycles, ATV's, trucks, and cars with loud or missing mufflers, we were prompted to include all such vehicles.

We are pleased to announce we have recently received 501(c)(3) status from the IRS, making donations tax-deductible.

Our goal is to inform and educate people about the many effects of noise pollution on public health and safety, as well as its impact on quality of life.

Everyone has the right to own and operate their preferred vehicle. However, as we coexist in a society of many; it is crucial everyone should consider the well-being of all individuals and strive to reduce harm.

# **STOP LOUD VEHICLES, INC.**

**How can you help?**

- ❖ **Sign the petition**
- ❖ **Distribute the flyer**
- ❖ **Invite a member of the task force to speak**
- ❖ **Contact state legislators- senators & representatives!**
- ❖ **Go to [noisesurveyga.com](http://noisesurveyga.com) and complete the survey every time you hear a loud vehicle.**
- ❖ **Donate – we have no money. We have paid for everything with our own money or had it donated.**
